

INDUSTRY INVOLVEMENT

ACPPA works hand-in-hand with numerous organizations having similar goals and objectives. Members and staff volunteer their expertise and professional experience in such areas as standards, technology, sustainability, education and research.

These organizations include:

American Concrete Institute

Advances knowledge about concrete by conducting seminars, managing certification programs and publishing technical documents.

American Society of Civil Engineers

The world's largest publisher of civil engineering technical content. ACPPA members serve in leadership positions on several committees within ASCE's [Utility Engineering and Surveying Institute](#).

ASTM International

One of the largest standards-producing organizations in the world. ACPPA members serve in leadership positions on several subcommittees within ASTM's [Committee A01 – Steel, Stainless Steel and Related Alloys](#).

American Water Works Association

Provides knowledge, information and advocacy to improve the quality and supply of water in North America and beyond. ACPPA members serve in leadership positions on several subcommittees within AWWA's [Concrete Pressure Pipe Standards Committee](#).

Clean Water Council

Underground construction contractors, design engineers, suppliers, manufacturers and other professionals working together to ensure a high quality of life through sound environmental infrastructure.

Design Build Institute of America

Promotes the value of design-build project delivery and teaches the effective integration of design and construction services.

NACE International

NACE is the world's largest organization committed to the study of pipeline corrosion.

National Association of Manufacturers

The nation's largest industrial trade association, representing manufacturers in every industrial sector and in all 50 states.

North American Society for Trenchless Technology

An educational and technical society promoting the benefits of trenchless technology through education, training and research.

Strategic Development Council

A high-level forum in which leaders of the concrete industry discuss strategic issues and develop programs that improve concrete design and construction.

Water Environment Federation

An educational and technical organization dedicated to preserving and enhancing the global water environment
